Al Wells received a telephone call on Saturday from a Mrs. Stokes "about what she had learned through a medium named Mr. James Hogg, 19 Upham Park Road, about the airplane crash near Guam. She said that through the medium, she spoke with those who died in the crash, and learned that the plane hit the water 150 miles northeast of Guam, and that the cause of the accident was a fault in the electric circuit near the petrol tank. She said she had a tape recording of the statements of certain of the dead made through the medium. She menticned that by mistake she made contact through the medium with Franklin D. Roosevelt. She said she was not a great admirer of his, but in 'this business, you have to take what you get.' "

Mrs. Kennedy's visit is causing a considerable stir. Buckingham Palace has again been confronted by the necessity of asking Stash and Lee Radziwill to the lunch the Queen is giving for her. Again, the matter of his Nassau nationality is complicating the protocol.
